

MULTI-FACETTED FORWARDING.

SEAPORT LOGISTICS

International trade requires – above all – compliance with import/export regulations and EU/national rules, directives and regulations. The many different customs regulations and procedures, including veterinary/phytosanitary inspections, demand specialist knowledge and precision. EU directives are constantly changing, so continual updating is needed.

We are experts in import/export clearance, veterinary/phytosanitary clearance, and fiscal representation. With our seaport locations in Bremerhaven, Hamburg, Rotterdam and Antwerp, and our co-operating partners in Tilbury and Felixstowe (UK) and Le Havre (France), handle imports and exports throughout the whole world.

OUR SERVICES |

- Import/export clearance within the EU (*import/export procedures, representation at external EU borders, all customs formalities and guarantees, bonded warehousing*)
- Intrastat reporting, fiscal representation and VAT assistance
- Sea freight forwarding
- Pre-carriage and onward carriage (*multimodal by road and rail*)
- Container trucking for short- and long-distance transport
- All cold store services
- Worldwide sea freight booking
- Arrangement of all transport insurance
- AEO Certificate

All aspects are handled by **Thermottraffic** itself, to ensure the safety of your goods. Expertise and care are part of our service, together with personal dedication and excellent contacts worldwide.
