

# CARGO SUPERFAST AIR FORWARDING.

## AIR FREIGHT TRANSPORT

As a specialist forwarder with decades of experience in import/export clearance of temperature-sensitive goods, we provide excellent transport concepts and logistic solutions with comprehensive service packages.

There's something in the air! Sending your products by air freight with **Thermottraffic** gives you the flexibility and speed to reach world markets on every continent at the right time. With first class partners, we ensure smooth transportation of all air freight consignments.

### OUR SERVICE PACKAGE |

- Pre-carriage to departure airport
- Handling of all necessary freight, customs and veterinary documents
- Onward carriage from destination airport

**Thermottraffic** is "on air" for its clients at all times. Our team organizes the communication between all the carriers involved. Whether it's the road carrier or the airline, we keep control of the entire process, to ensure that everything goes according to plan!
